The decline in ROA is primarily attributable to the higher credit costs incurred in the micro finance portfolio in Q1-FY26. Secured book of the company remains robust and continues to grow at a good rate. Company expects normalized ROA of 5%-6% and ROE of 18%-20% from FY 26 onwards.

The Client Loans are secured against hypothecation of, receivables and other current assets and the clients of these loans are of low risk category as they are backed by Gold, which is liquid.

As on 30th Jun' 2025, the gross NPA was Rs. 53,24,37,920.80/- on a gross portfolio of Rs. 24,69,38,45,551.92/- (including securitized portfolio of Rs. 20,30,82,41,262.90/-).

The Issuer cannot assure that the Issuer will be able to effectively control and reduce the level of NPAs in its total loan portfolio. The amount of the Issuer's reported non-performing loans may increase in the future as a result of growth in the total loan portfolio, and also due to factors beyond the Issuer's control. Failure to manage NPAs or effect recoveries will result in operations being adversely affected.

The Issuer's current loan loss reserves may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of the Issuer's total loan portfolio. As a

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

result, if the quality of the Issuer's total loan portfolio deteriorates the Issuer may be required to increase the loan loss reserves, which will adversely affect the Issuer's financial condition and results of operations.

2. *Interest Rate Risk.*

The Company's interest income from lending is dependent upon interest rates and their movement. Interest rates are highly sensitive to many factors beyond the control of the Company, including the monetary policies of the RBI, domestic and international economic and political conditions, inflation and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility. Consequently, there can be no assurance that significant interest rate movements will not have an adverse effect on the Company's financial results and/or operations.

3. *Access to Capital Market and Commercial Borrowings*

With the growth of its business, the Company will increasingly rely on funding from the debt capital markets and commercial borrowings. The Company's growth and financial performance will depend on its continued ability to access funds at competitive rates which in turn will depend on various factors including its ability to maintain its credit ratings.

4. *Operational and System Risk*

Currently, the Issuer has put in place all the technological systems and checks to address these kinds of operational and system risks however the Company is faced with operational and system risks, which may arise because of various factors, viz., improper authorizations, failure of employees to adhere to approved procedures, inappropriate documentation, failure in maintenance of proper security policies, frauds, inadequate training and employee errors. Further, the Company also faces security risk in terms of system failures, information system disruptions, communication systems failure which involves certain risks like data loss, breach of confidentiality and adverse effect on business continuity and network security.

If any of the systems do not operate properly or are disabled or if other shortcomings or failures in internal processes or systems are to arise, this could affect the Company's operations and/or result in financial loss, disruption of the Company's businesses, regulatory intervention and/or damage to its reputation. In addition, the Company's ability to conduct business may be adversely impacted by a disruption (i) in the infrastructure that supports its businesses and (ii) in the localities in which it is located.

5. *The Issuer's business operates through a large number of rural and semi urban branches and is exposed to operational risks including fraud*

The Issuer is exposed to operational risks, including fraud, petty theft and embezzlement, as it handles a large amount of cash due to high volume of small transactions. This could harm its operations and its financial position.

As the Issuer handles a large amount of cash through a high volume of small transactions taking place in its network, the Issuer is exposed to the risk of fraud or other misconduct by its employees or outsiders. These risks are further compounded due to the high level of delegation of power and responsibilities that the Issuer's business model requires. Given the high volume of transactions processed by the Issuer, certain instances of fraud and misconduct may go unnoticed before they are discovered and successfully rectified. Even when the Issuer discovers such instances of fraud or theft and pursue them to the full extent of the law or with its insurance carriers, there can be no assurance that the Issuer will recover any such amounts. In addition, the Issuer's dependence upon automated systems to record and process transactions may further increase the risk that technical

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

The Issuer has avoided dealing with cash to the maximum extent possible. Excepting few small ticket Gold Loans, which are disbursed in cash, Group Loans and MSME Loans are disbursed through Bank. Only Group Loans have collections done in cash and Gold Loans, if the collection amount is >2L and MSME collections are done through Bank mode done.

Branches are audited frequently and the Cash balance checks are conducted frequently. The Issuer also has a strong MIS system that has a wide range of data that can be used to monitor financial and operational performance.

To mitigate the above risk, the Issuer maintains an internal audit process to ensure that the operations team follows the defined procedures and reports any deviations to the Management. The Issuer also has a MIS system able to generate data analysis that can be used to monitor financial and operational performance.

6. *Gold loans account for majority of the Issuer's interest income, and a significant reduction in short term loans may result in a corresponding decrease in its interest income*

Gold loans account for 83% of the loan portfolio of the Issuer with approximate tenor of 6-9 months from the date of the disbursement and the other products like loan against property/housing loans account for 17% of the loan portfolio having an average tenor of 5-6 years. The relatively short-term nature of the Issuer's loans means that the Issuer's long-term interest income stream is less certain than if a portion of its loans were for a longer term. The Issuer's customers may not obtain new loans from the Issuer upon maturity of their existing loans, particularly if competition increases. The potential instability of the Issuer's interest income could materially and adversely affect the Issuer's results of operations and financial position.

7. *Any inability of the company to attract or retain talented professionals may impact its business operations*

The business in which the Company operates is very competitive and ability to attract and retain quality talent impacts the successful implementation of growth plans. The Company may lose business opportunities and its business would suffer if such required manpower is not available on time. The inability of the Company to replace manpower in a satisfactory and timely manner may adversely affect its business and future financial performance.

In particular, the Issuer's senior management has significant experience in the financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

Headcount of employees increased from 2,143 in June' 24 to 3,277 by June' 25. It is evident from the multi-fold growth in the headcount that the Issuer has capability to attract and retain talent. In the very first year of its start of operations, the Issuer hired three vertical heads for Gold, MSME

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

and Micro Finance. All the vertical heads and business heads have on an average 15 years of experience in financial services.

8. *Employee Misconduct*

Any kind of employee misconduct may impair the Company's ability to service clients. It is not always possible to deter employee misconduct and the precautions the Company takes to detect and prevent this activity may not be effective in all cases.

9. *The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees*

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

The Issuer is fully compliant with all labour policies. It has flexible working hours. Even the Micro Finance team has flexible working hours during non-collection days.

10. *The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position*

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to the Issuer on acceptable terms. A successful assertion of one or more large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations.

All Borrowers and spouses of unsecured loans are insured for a sum insured equivalent to loan amount. Further, their male spouses are covered under accidental insurance. Gold lying in Branches is also insured against theft, fire etc.,

11. *Downgrading in credit rating*

The Company cannot guarantee that any rating will not be downgraded. In the event of deterioration in the financial health of the Company, there is a possibility that the rating agency may downgrade the rating of the Debentures. In such cases, potential investors may have to take losses on re-valuation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms. Such a downgrade in the credit rating may lower the value of the Debentures and/or the Company's ability to meet its obligations in respect of the Debentures could be affected.

12. *Debenture Redemption Reserve*

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

NBFCs registered with RBI are exempt from the requirement of creation of debenture redemption reserve in respect of privately placed debentures. Pursuant to this rule, the Company does not intend to create any such reserve funds for the redemption of the Debentures.

13. *Action upon default*

The Debentures are proposed to be secured / unsecured (as shall be set out in the relevant Key Information Document). In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may take action as per the terms of Debenture Trust Deed and the relevant Security Document.

14. *Tax and other Considerations*

Special tax, accounting and legal considerations may apply to certain types of potential investors. Potential investors are urged to consult with their own financial, legal, tax and other professional advisors to determine any financial, legal, tax and other implications of an investment into the Debentures.

15. *The Debentures may be illiquid*

The Company intends to list the Debentures on the WDM segment of BSE and / or NSE. The Company cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange and that there would be any market for the Debentures. It is not possible to predict if and to what extent a secondary market may develop for the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

16. *Future legal and regulatory obstructions*

Future government policies and changes in laws and regulations in India (including their interpretation and application to the operations of the Company) and comments, statements or policy changes by any regulator and any regulatory action, including but not limited to SEBI or RBI, may adversely affect the Debentures, and restrict the Company's ability to do business. The timing and content of any new law or regulation is not within the Company's control and such new law, regulation, comment, statement or policy change could have an adverse effect on its business, financial results and/or operations. Further, SEBI, the relevant Stock Exchange(s) or other regulatory authorities may require clarifications on this General Information Document and/or relevant Key Information Document and / or the Private Placement Offer cum Application Letter, which may cause a delay in the issuance of Debentures or may result in the Debentures being materially affected or even rejected.

NBFCs in India are subject to strict regulation and supervision by the RBI. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC pursuant to Section 45-IA of the RBI Act, 1934. Further, such approvals, licenses, registrations and permissions must be maintained/ renewed over time, applicable requirements may change and the Issuer may not be aware of or comply with all requirements all of the time. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC-ND-SI that is subject to numerous conditions. Additionally, RBI has issued detailed directions on prudential norms *inter alia* prescribing guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy, restrictions on investments in land and building and unquoted shares besides others. In addition, its branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishments laws regulate various employment conditions,

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

including working hours, holidays and leave and overtime compensation. If the Issuer fails to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, its business may be adversely affected. If the Issuer fails to comply, or a regulator claims that it has not complied, with any of these conditions, the Issuer's certificate of registration may be suspended or cancelled, and it shall not be able to carry on such activities. If the Issuer fails to comply with any directions issued applicable on NBFCs and fails to maintain the status of NBFC it may attract penal provisions under the RBI Act, 1934 for non-compliance. The penal action can also result in RBI cancelling the certificate of registration issued to the NBFC.

The Promoter and the MD of the Issuer has more than 25 years of managing NBFC and NBFC MFI. She has excellent track record in terms of NBFC Compliances. As the management is not new to NBFC structured and related compliance, the risk of non-compliance and related risks are very low.

17. *A slowdown in economic growth in India*

The Company's performance and the quality and growth of its assets are necessarily dependent on the health of the overall Indian economy. A slowdown in the Indian economy may adversely affect its business, including its ability to enhance its asset portfolio and the quality of its assets, and its ability to implement certain measures could be adversely affected by a movement in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or a general downtrend in the economy. Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Company's ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available.

RISKS IN RELATION TO THE SECURITY CREATED IN RELATION TO THE DEBT SECURITIES. FURTHER, ANY RISKS IN RELATION TO MAINTENANCE OF SECURITY COVER OR FULL RECOVERY OF THE SECURITY IN CASE OF ENFORCEMENT

(a) Security and Guarantee may be insufficient to redeem the Secured Debentures

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Secured Debentures, the Debenture Trustee may enforce the Security and/or invoke the Guarantee as per the terms of security documents, and other related documents executed in relation to the Secured Debentures. The Debenture Holder(s)' recovery in relation to the Secured Debentures will be subject to (i) the market value of such Security (ii) finding willing buyers for the Security at a price sufficient to repay the Debenture Holder(s)' amounts outstanding under the Secured Debentures. There is a risk that the value realised from the enforcement of the Security may be insufficient to redeem the Secured Debentures.

Even though the Secured Debentures are to be secured to the extent of at least 100% (One Hundred percent) of the principal and interest amount or as per the terms of this General Information Document, in favor of the Debenture Trustee, the recovery of 100% of the amount shall depend on the market scenario prevalent at the time of enforcement of the security.

RISKS RELATING TO THE DEBENTURES

1. *Debentures that are listed or quoted or admitted to trading may not lead to greater liquidity*

It is not possible to predict if and to what extent a secondary market may develop in the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in this General Information Document and/or Key Information Document and / or the Private Placement Offer cum Application Letter, application has been made to list or quote or admit to trading the Debentures on the stock exchange or quotation system(s) specified. If the Debentures are so listed or quoted or admitted to trading, no assurance

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

is given that any such listing or quotation or admission to trading will be maintained. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading. The listing of the Debentures is subject to receipt of the final listing and trading approval from the Stock Exchange.

The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realise value for the Debentures prior to redemption of the Debentures.

2. *Changes in government policies and laws in India may adversely affect the Debentures*

Future government policies and changes in laws and regulations in India and comments, statements or policy changes by any regulator, including but not limited to the SEBI or the RBI, may adversely affect the Debentures. The timing and content of any new law or regulation is not within the Company's control and such new law, regulation, comment, statement or policy change could have an adverse effect on market for and the price of the Debentures.

3. *Political instability or changes in the government could delay further liberalization of the Indian economy and adversely affect economic conditions in India generally*

Since 1991, successive Indian governments have pursued policies of economic liberalization. The role of the Central and State Governments in the Indian economy as producers, consumers and regulators has remained significant. If there was to be any slowdown in the economic policies, or a reversal of steps already taken, it could have an adverse effect on the debt market which as such is exposed to the risks of the Indian regulatory and policy regime.

4. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Debentures.*

Our ability to pay interest accrued on the Debentures and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the Debentures and/or the interest accrued thereon in a timely manner or at all.

5. *There may be no active market for the non-convertible debentures on the WDM segment of the stock exchange. As a result, the liquidity and market prices of the non-convertible debentures may fail to develop and may accordingly be adversely affected.*

There can be no assurance that an active market for the Debentures will develop. If an active market for the Debentures fails to develop or be sustained, the liquidity and market prices of the Debentures may be adversely affected. The market price of the Debentures would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country; (ii) the market for listed debt securities; (iii) general economic conditions; and (iv) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the Debentures, which may trade at a discount to the price at which you purchase the Debentures and/or be relatively illiquid.

6. *Risk of breach of covenants:*

In the event of any breach of any covenants including financial covenants or terms of the transaction documents the Debenture Trustee and Debenture Holders shall have the right to take all actions under respective transaction documents including calling of event of default and enforcement of security.

largely unmet. This segment is traditionally un-served by banks, underserved by NBFCs, and beyond the serviceable limits of NBFC-MFIs. The focus areas chosen were Gold Loans, Micro Enterprise lending both secured and unsecured to start with.

The idea of Keertana took birth in November 2021. However, an NBFC outfit was needed to further the vision, and towards this an existing NBFC registered in 2001, Rajshree Tracom Pvt Limited was acquired by the promoter, subsequently acquired ~Rs 215cr worth of Gold Loan and Micro-Enterprise portfolio from Spandana Mutual Benefit Trust (SMBT) & Spandana Rural and Urban Development (SRUDO) respectively. Keertana Finserv Private Limited name was changed to Keertana Finserv Limited after necessary approvals (i.e. conversion from private limited to public limited company).
